Guide to Bulb Replacement

Standard 110 Volt Bulbs

	<p>56.99244 All buildings introduced prior to 1999 use this bulb. The voltage is standard US 110 volts. These bulbs work with 56.99028 Single Light Cord, 56.99279 Six Socket Light Set, 56.52835 Three Socket Light Set, 4035315 Single Light Cord, black, 56.53039 Auxiliary Light Cord</p>
	<p>56.99245 Can be used in place of 56.99244. Voltage is identical. Well suited to be used when the standard bulb is too long for building.</p>
	<p>810803 These bulbs work with 56.99028 Single Light Cord, 56.99279 Six Socket Light Set, 56.52835 Three Socket Light Set, 4035315 Single Light Cord, black Can be used for lighting effects in any building using 56.99244.</p>
	<p>4030893 These bulbs work with 56.99028 Single Light Cord, 56.99279 Six Socket Light Set, 56.52835 Three Socket Light Set, 4035315 Single Light Cord, black Can be used for lighting effects in any building using 56.99244.</p>
	<p>4048110 These bulbs work with 56.99028 Single Light Cord, 56.99279 Six Socket Light Set, 56.52835 Three Socket Light Set, 4035315 Single Light Cord, black Can be used for lighting effects in any building using 56.99244. (New – 2015)</p>
	<p>56.99002 Handy bulb carton with 50 bulbs. Cost saving for large displays. Same bulb as 56.99244.</p>

Three Volt Bulbs

	<p>56.53121 Buildings with exterior LED lights and/or animation and/or sound will use a low voltage bulb. The shape will be pear-shaped, or like the top of a hot air balloon. To be sure, check the OUTPUT listed on the adapter. If the output is listed as 3 Volt then use a three volt bulb to light the interior.</p>
	<p>4035555 Can be used in any building where the socket calls for a three volt bulb. Can also be used with 56.53500 Building & Lighting Accessory System.</p>

	<p>804457 Can be used in any building where the adapter output calls for a three volt bulb. Can also be used with 56.53500 Building & Lighting Accessory System. Shape of bulb changed in 2015. New style uses the familiar pear shape of a frosted 3 volt bulb. Old style may still be found in some retail stores.</p>
--	---

Twelve Volt Bulbs

	<p>56.53161 Buildings with exterior LED lights and/or animation and/or sound will use a low voltage bulb. The shape will pointed with 12V stamped in red on the side glass of this bulb for easy identification. To be sure, check the OUTPUT listed on the adapter. If the output is listed as 12 Volt then use a 12 volt bulb to light the interior.</p>
	<p>800031 Can be used anywhere the 56.53161 is used. Provides eerie effects for Halloween. Not for use with standard light cords or 56.53500 Building & Lighting Accessory system.</p>
